What is IDPA?

International Defensive Pistol Association (IDPA) is a shooting sport that promotes the use of practical equipment including full charge service ammunition to solve simulated "real world" self-defense scenarios. If you enjoy practical pistol shooting in a realistic scenario-based environment, this is for you! IDPA has a little something for everyone...Concealed Pistol License holders - men and women alike - can practice self-defense tactics for responsible concealed carry and enhanced personal security, competitive shooters can enjoy the pistol match competition, and everyone can shoot for personal improvement or just for fun. Shoot on-the-move, multiple target engagement, shoot from behind cover, strong-hand/weak-hand only shooting, and much more!
